

JAMAICA_9th Grade Math

Table of Content

1. Number System

1.1 Introduction

1.2 Real Numbers and their Decimal Expansions

1.3 Representing real numbers on the number line

1.4 Laws of Exponents for Real Numbers

1.5 Expressing Numbers in the Standard Form

2. Comparing Quantities

2.1 Understanding Ratios

2.2 Unitary Method

2.3 Checking Proportions

2.4 Solving Proportions

2.5 Solving Applications Using Proportions

2.6 Understanding Percents

2.7 Ratios to Percents

2.8 Converting Percentages to Fractions or Decimals and Vice-Versa

2.9 Problems on Percentage

3. Sets

3.1 Sets and Set Notations

3.2 Types of Sets

3.3 Subsets

3.4 Operations on Sets

3.5 Venn Diagrams

4. Measurements

4.1 Basic Operations on Measurements

4.1.1 Multiplying and Dividing Measurements by Numbers

4.1.2 Adding and Subtracting Measurements

4.2 Unit Conversions in the Same System

4.2.1 Converting Units in the Metric System

4.3 Estimating Measurements in the Metric System

4.3.1 Estimating Measurements in the Metric System

5. Perimeter and Area

5.1 Perimeter of Plane Figures

5.2 Area of Plane Figures

5.3 Pythagoras Theorem

6. Volume

6.1 Volume of a Cuboid and a Cube

6.2 Volume of a Right Circular Cylinder

7. Time and Temperature

7.1 Convert Temperatures from Celsius to Fahrenheit

8. Angles and Parallel Lines

8.1 Geometry Terminology

8.2 Angles and its Types

8.3 Pairs of Related Angles

8.4 Constructing Angle and Angle Bisector

8.5 Constructing Angles : 60° , 30° , 120° , 90° , 45°

8.6 Constructing Perpendicular and Perpendicular bisector

8.7 Parallel Lines and Special Angle Pairs

9. Polygons: Triangles and Quadrilaterals

9.1 Introduction

9.2 Criteria for Congruence of Triangles

9.3 Properties of a Triangle

9.4 Construction of Triangles

9.5 Regular Polygons and Measure of Angles

9.6 Quadrilateral

9.7 Types of Quadrilaterals

9.8 Sufficient Conditions for a Quadrilateral to be a Parallelogram

9.9 Properties of a Parallelogram

9.10 Construction of Quadrilaterals

10. Circles

10.1 Circles and its Related Terms

10.2 Chords of a Circle and its Related Theorems

10.3 Perimeter

10.4 Area of Sector and Segment of a Circle

11. Solids/Three Dimensional Figures

11.1 Visualising Shapes

11.2 Faces, Vertices and Edges

11.3 Prism

11.4 Volume of Cuboid and Cube

11.5 Surface area and Volume of a Right Circular Cylinder

12. Symmetry

12.1 Symmetry

12.2 Symmetries for Geometrical Figures

12.3 Reflection

12.4 Rotation

13. Trigonometry

13.1 The Trigonometric Functions

13.2 Heights and Distances

14. Algebraic Expressions and Identities

14.1 Algebraic Expressions

14.2 Addition and Subtraction of Algebraic Expressions

14.3 Product of a Monomial and a Polynomial

14.4 Evaluate Algebraic Expressions

15. Factoring

15.1 Factorisation by Grouping

16. Pair of Linear Equation in two variables

16.1 Pair of Equation in two variables

16.2 Graphical method of solving pair of Linear Equation

16.3 Algebraic method of solving pair of linear Equation

17. Linear Inequalities

17.1 Linear Inequation

17.2 Solutions of Linear Inequalities

17.3 Three Part Inequalities

18. Relations and Functions

18.1 Definition of a Relation

18.2 Definition of a Function

18.3 Graph of a Relation

18.4 Vertical Line Test Notation

18.5 Functional Notation $f(x)$

18.6 Additional Examples with Pop-up Solution

19. Graphs of Linear/Non-Linear Functions/Equations

19.1 Plotting Ordered Pairs

19.2 Graphing a linear equation using points

19.3 Graphing a linear equation Using intercepts

19.4 Slope of a Line Through Two Given Points

19.5 Finding the slope of a line from the equation of the line

19.6 Solutions of Linear Inequalities

19.7 Graphing Linear Inequalities in two Variables

19.8 Solving System of Linear Inequalities

20. Statistics and Probability

20.1 Statistics

20.2 Presentation of Data

20.3 Graphical Representation of Data

20.4 Measure of Central Tendency

20.5 Mean of Grouped Data

20.6 Mode of Grouped Data

20.7 Median of Grouped Data

20.8 Probability

21. Vectors

21.1 The Position Vector

21.2 The Representations of a Position Vector

21.3 The Magnitude (Norm) of a Vector

21.4 Vectors with Magnitude and Inclination

21.5 Addition of Vectors

21.6 Multiplication by a Scalar

21.7 Vectors with Initial Points not at the Origin

21.8 The Unit Vector

22. Matrices

22.1 Matrices

22.2 Equality of Matrices

22.3 Addition of Matrices

22.4 Subtraction of Matrices

22.5 Matrix Multiplication
